Working on Sunday.

The Question Before the Post-office Department.

SHALL WE HAVE SUNDAY MAILS?

A Problem That Has Been a Vexatious One for the Past Fifty Years, and is No Nearer Solution Now Than Then—Other News From Washington.

WASHINGTON, Aug. 12.—The question of Sunday work in the government postal service is seriously engaging the attention of postoffice officials. The question is not new to the department. Fifty years ago it was considered, and since that time various rulings and orders relating to Sunday work by government postal employees have been made. These orders have been as different as they have numerous, no two of them being alike.

With the growth of the postal service, Sunday work has increased, and how to avoid working on Sundays, and at the same time supply the demands of the public, is a problem which to-day seems to be no nearer solution than it was years ago, or at any time since the question first attracted the attention of postoffice officials. There seems to be a direct conflict between the religious and business elements of the country in urging a settlement of this question. The former have demanded through petitions, letters, and appeals that Sunday work in the postal service should be reduced to a minimum, while the business element have constantly urged increased postal facilities regardless of whether the work was performed on Sundays or week days.

This question of Sunday work was prominently brought to the attention of postoffice officials during the administration of President Cleveland and when Mr. Vilas was postmaster general. Congress had passed a law providing that letters having a special delivery stamp on them should be immediately delivered on their receipt at any postoffice in the United States where the free delivery system was in operation. This was construed by Mr. Vilas to mean that this class of letters should be delivered seven days in the week, (on Sundays as well as week days), and he issued instructions to that effect.

Then there immediately arose a clamor from religious bodies throughout the country against the desecration of the Sabbath, and petitions and memorials piled into the postoffice department by the thousands, asking that the instructions be revoked. On the other hand the business men of the country heartily supported the innovation. The sentiment against Sunday work was so strong, so respectable and so earnest, that President Cleveland took the matter under consideration and the instructions of Mr. Vilas were withdrawn and postmasters left to their discretion in carrying out the special delivery law on Sundays.

It remains in that condition to-day. In some cities this class of letters are not delivered at all on Sunday; in others only a few hours during the day, and in no two cities are the deliveries made at the same hour. This whole question of Sunday work, special letter delivery, window letter delivery, railway postal car work, star route and steamboat routes, will be taken up and considered by Postmaster General Wamamaker in all its different phases on his return from his vacation. Postoffice officials look forward to its settlement with interest, but because of the conflicting interests hardly expect a solution of the question that will be satisfactory to the religious element, the business element and the government itself.

Reports of Indian Outrages Unfounded.

WASHINGTON, Aug. 12.—Adj. Gen. Kelton has received a telegram from Gen. Miles, at San Francisco, informing him that the commanding general of the department of the Columbia telegraphs that Capt. Luhn, Fourth Infantry, sent with his company to Calispet, W. T., to investigate reports of an Indian outrage, reports under date of Aug. 7, that there were no haystacks burned and no threats made by the Indians. Some land was burned over, but there is no reason to think that the fire was started by the Indians. Capt. Luhn has been ordered back to Fort Spokane.

No Yellow Fever.

WASHINGTON, Aug. 12.—Dr. F. J. Combe, who was detailed by the surgeon general of the marine hospital service to make an investigation of rumors of yellow fever at the port of Tampico, Mexico, has just made a detailed report. At present, he says, there is not a suspicious, or even a sporadic, case of yellow fever in Tampico. This, however, he regards as surprising, as the city is in constant communication with Vera Cruz, where the disease is said to be epidemic, and annually prevalent.

ARMY OF THE CUMBERLAND.

Extensive Preparations Being Made for the Coming Reunion at Chattanooga.

CHATTANOOGA, Tenn., Aug. 12.—Great preparations have been made here for the entertainment of the Society of the Army of the Cumberland, which holds its next annual reunion in this city Sept. 19, 20 and 21. Notice has already been received from different divisions of the Army of the Cumberland to insure the attendance of many thousands of veterans of the Union army. During the reunion the Chickamauga Memorial association is to be organized. This society has for its purpose the purchase and preservation by the government of the Chickamauga battlefield, and making a national park there. Temporary

organization was last spring effected in Washington in which participated a great number of veterans of the armies of the North and South. At the meeting there were present a number of senators and members of congress.

The association has received a charter from the state of Georgia, which enables them to secure the land embraced in the field by condemnation. Efforts are now being made to secure a large attendance of veterans of the southern army. This will be the first organization ever attempted of veterans of both armies, and it is thought it will do more than any other movement to cement the Union. There is great enthusiasm in the movement throughout the south, and many of the leading men have given it their hearty endorsement.

STEEL ASSOCIATIONS.

An Organized Effort Being Made to Advance Prices in the Near Future.

PITTSBURG, Aug. 12.—There is an indication that the two steel associations which were dissolved during the troublous condition of the metal trade last November, will be reorganized and make another endeavor to advance prices. The associations were the Bessemer Steel association and the Merchants Steel association. The former included the manufacture of heavy blooms and slabs, while the latter numbered most of the finished steel manufacturers. Both organizations formerly held monthly meetings and upheld card rates in the western market, but during the demoralization of trade last winter the members began to make individual cuts in the special list, and finally the manufacturers gave up all endeavors to uphold the market, and the associations dissolved.

Now conditions are changing and there exist a general desire among the Pittsburgh manufacturers to secure a card rate and stick to it. They state that there is a general upward tendency in the metal market, but that the manufacturers can only reap the benefit of the new condition by mutual agreement. A meeting of the Bessemer Steel association has been called to meet in New York Sept. 15, and that in the same month the Merchant Steel association will meet in Pittsburgh.

THE PRESIDENT'S SUNDAY.

He Attends Church in St. Mary's Chapel By the Sea.

BAR HARBOR, Me., Aug. 12.—President Harrison went to church at North-east Harbor Sunday, in company with Secretary and Mrs. Blaine, Congressman and Mrs. Lodge, Miss Harriet Blaine, Walker Blaine and Mr. Halford. The service was held in the Episcopal chapel of St. Mary's by the sea, a quaint little building about twelve miles from Bar Harbor. Bishop Doane, of Albany, who has a summer residence near by, preached a sermon devoid of politics.

After service the president in walking from the aisle, stopped and chatted with several persons, and on reaching the green in front of the chapel he acknowledged the greetings of probably 400 people. He lunched at the Doane residence and in the afternoon the party drove back to Stanwood, taking tea at Mr. Palmer's cottage, where they met Secretary Tracy's daughter, Mrs. Wilderming, Lieut. and Mrs. Mason, and others.

Died on Her Wedding Eve.

WABASH, Ind., Aug. 12.—Mrs. Mary Lambert, a widow residing with her mother on Water street, this city, died early Saturday morning, having taken an overdose of morphine after 11 o'clock Friday night. She had been quite ill with sick headache for several days and took the drug Friday. Being unable to sleep, she got up in the dark and took an enormous dose, and when found by the family was in the throes of death. Mrs. Lambert, who leaves three children, was 25 years of age, and had completed preparations for her marriage that evening to Hezekiah Williams.

The Sioux Treaty Lands.

CHAMBERLAIN, S. Dak., Aug. 12.—The report extensively circulated that congress must ratify the Sioux treaty before the lands are thrown open is a mistake. It will only need the president's proclamation after the commission reports to make the lands a part of the public domain.

Big Gas Well Near Anderson, Ind.

ANDERSON, Ind., Aug. 12.—The Richmond Pipe Line company Saturday shot the gas well completed Wednesday, developing a good well, with a capacity of about 12,000,000 cubic feet per day. This well is located three miles and a half northwest of this city.

Killed at the Card Table.

MACON, Ga., Aug. 12.—Herman Bachendorf, a jeweller and sporting character, was stabbed and killed early this morning, by Lee Lowenthal, a young man about town. Bachendorf had accused Lowenthal of cheating at cards. The murderer is under arrest.

In Love With a Married Woman.

SACRAMENTO, Cal., Aug. 12.—John Henning, a painter, shot and killed Mrs. John Shellers in her husband's candy store yesterday, and then shot himself dead. It is supposed that Henning was in love with Mrs. Shellers, who did not encourage his advances.

Fell from a Third Story Window.

WASHINGTON, Aug. 12.—The lifeless body of Walter McKee, a young man about 27 years of age, was found with his skull crushed and limbs broken, in the rear of his residence here, early Sunday morning. McKee was in the habit of sitting in the window of his room on the third floor and smoke his pipe before going to bed. It is supposed that late that night, while in this position, he went to sleep and fell out of the window.

Laborers' Troubles.

A Mass Meeting of Miners at Streator, Illinois.

AN AGREEMENT NOT REACHED.

The Miners Hopeful of an Advance Being Secured and as Determined as Ever. Fears of Trouble in the Pennsylvania Coke Region.

STREATOR, Ill., Aug. 12.—The miners' mass meeting in this city Saturday was not large, but its spirit was decidedly warlike. The contingent from Kangley was extreme, and dominated the meeting to the discomfiture of the more moderate Streator miners. A motion to compromise on seventy-five cents was passed, but was reconsidered through the efforts of the Kangley men.

Six delegates were elected to attend the joint conference of miners and operators to be held under the auspices of the state board of charities at Joliet. They were instructed to accept seventy-seven and one-half cents as a basis of settlement. Secretary Cheeseman, of the executive committee, advised the Coal Run miners not to accept the award of the board of arbitration unless the clause relating to the term for which said award was made binding was stricken out.

A meeting of the Coal Run miners, held after the mass meeting, determined to stand by the award and to go to work under it. A committee of the Coal Run miners waited on the officers of the company and effected an arrangement by which any settlement arrived at by the district, as a whole, will be accepted in place of the award of the arbitrators. The miners are hopeful of an advance being secured, and show as much determination now as ever. The attitude of the operators is rigid and uncompromising.

Fearing Another Outbreak.

GREENSBURG, Pa., Aug. 12.—Fearing another outbreak at Hecla when the men begin work, Thaw and Dorsey, owners of the works has requested the sheriff to send a posse to Hecla, prepared to protect the lives of their employees and their property. The sheriff with forty men, armed with Winchester rifles has left for Hecla works on a special train.

Col. Schoonmaker, and Superintendent Lynch, of Fricks, were in consultation with the sheriff in reference to sending deputies to protect their property. It was reported that two of the several men injured during Saturday's riot were dying.

TRAINS WRECKED.

Negligence Causes a Serious Accident Near Topeka, Kansas—Freights Collide.

TOPEKA, Kan., Aug. 12.—The St. Joseph express train from the southwest on the Rock Island collided Sunday afternoon, one mile west of this city with a construction train, resulting in the instant death of L. U. Courter, express messenger, and seriously injuring Postal Clerk S. G. Dailey and the fireman and engineer of the construction train. The express car was crushed to pieces, and the engines of each train and nearly all the cars were thrown down an embankment. None of the passengers were injured.

The accident is due to negligence on the part of the engineer of the construction train, who was taking his train to a side track to allow the express to pass. He was five minutes late, and the express, being on time and running at full speed, was upon him before the brakes could be applied. The loss to the Rock Island company is estimated by Superintendent Allen at \$25,000.

Two Freight Trains Wrecked.

BRADFORD, Pa., Aug. 12.—Two freight trains were wrecked at Whistletown, Elk county, Pa., Sunday morning at 6 o'clock. Bert Anderson, an Erie brakeman, who belonged in this city, was killed instantly and two engines and twenty-five cars were wrecked and burned. The operator at Johnsonburg should have held the Philadelphia and Erie train, but neglected to do so, and it crashed into an Erie freight going west, with the above results.

The Grade Too Steep.

ST. JOSEPH, Mo., Aug. 12.—The first portion of a freight train which was running in two sections, was unable to climb a steep grade near the city limits, and the second section collided with it. J. C. Haskins, of Orleans, Neb., a passenger on the caboose, was killed. All the train hands escaped by jumping.

ESCAPES FROM A MOB.

A Prisoner Removed Thirty Miles for Fear of Being Lynched.

FRANKFORT, Mich., Aug. 12.—The steamer Dewar returned to Frankfort Sunday morning, having on board Sheriff Case and posse, who had in custody C. L. Wright, who shot and killed Deputy Sheriff Neal Marshall and Frank E. Thurber at Otter Creek Saturday afternoon. The sheriff also brought as prisoners John Lahn, an Indian, and Johannes Anderson, a lumberman. The feeling here against Wright was so bitter that it was with difficulty the sheriff could force his way through the excited multitude. His posse surrounded the prisoners and marched them to the city prison, securely locking them in and leaving a strong guard to protect them from attack.

It was evident at once however, that the jail here would be strong enough to hold Wright against the growing indignation of the people, and an hour after the doors had been bolted behind him, Wright was gunned to again face the

populace. During his short stay in Frankfort, Sheriff Case had secured the service of the Dewar for another trip, and almost before the crowd knew what course had been decided on, Wright was hustled aboard again. The little steamer started for Manistee, thirty miles away, where the assassin was lodged for safe keeping.

BASE BALL.

Standing of the American Association and League Clubs.

The past week has been an interesting one in base ball circles, the interest centering in the St. Louis and Brooklyn clubs in a close race for first place. At one time the Brooklyn had overtaken the leaders and were a tie, but immediately dropped several points back in the race. For the third position both Baltimore and Cincinnati have had a hard fight, with the odds in favor of the former, while the Athletics have come up to be a participant in the struggle for that position. The present week promises several changes in the ranking of the clubs. The following is the standing of the clubs up to and including Sunday's games:

ASSOCIATION GAMES.		
	Won.	Lost.
St. Louis	6	31
Brooklyn	5	32
Baltimore	42	38
Cincinnati	51	41
Athletic	48	37
Kansas City	37	53
Columbus	35	59
Louisville	20	73

LEAGUE GAMES.		
	Won.	Lost.
Boston	52	30
New York	51	30
Philadelphia	46	37
Cleveland	48	39
Chicago	43	44
Indianapolis	36	53
Pittsburg	35	53
Washington	27	53

SUNDAY'S GAMES.

At Cincinnati—Cincinnati 3, Baltimore 4.
At Kansas City—Kansas City 6, Columbus 4.

At St. Louis—St. Louis 14, Brooklyn 4.
At Louisville—Louisville 3, Athletic 12.

SATURDAY'S BASE BALL.—Baltimore 9, Cincinnati 20; Athletic 11, Louisville 9; Brooklyn 2, St. Louis 4 (ten innings); Kansas City 6, Columbus 1; Washington 2, Pittsburg 1; Pittsburg 8, Washington 5; Cleveland 10, Philadelphia 5; New York 9, Indianapolis 6; Boston 9, Chicago 7.

THE LAW OBSERVED.

Only Two Arrests of Cincinnati Saloon Keepers.

CINCINNATI, Aug. 12.—The saloon keepers, as a rule, kept their pledge to keep their places closed yesterday. But two arrests for violation of the Owen law were made, and these were cases where confectionaries were kept open in connection with rooms in which liquor is regularly sold.

Aside from these the police found no occasion to note violations of the law, although it is a fact that in many instances side doors were utilized. So quietly were they "worked," however, that to all intents and purposes, the law was observed. As may be imagined, this marked change in the course of saloon keepers had the effect of making the city unusually quiet.

Attempt to Rob a Train.

LITTLE ROCK, Ark., Aug. 12.—News has reached here of what is supposed to have been an attempt of train robbery made Saturday night on the Iron Mountain railroad, one mile south of Newport Ark. Two men got on the train there between the baggage car and the smoker. A fight ensued between them and the baggage master, J. E. Garrity, and the colored porter, Andy Crittenden, in which the latter was killed and the former wounded. One of the men jumped from the train and escaped, but the passengers and train men, among whom was a detective, captured the murderer and brought him to this city. He gives his name as D. A. Whitfield, of Baxter county, this state. He is about 31 years old.

Instantly Killed in a Locked Car.

SAN ANTONIO, Tex., Aug. 12.—When the eastbound Southern Pacific train reached Rosenberg junction yesterday morning at 4 o'clock, it was found necessary to break open the car of the Wells Fargo Express company to find out what was the matter with J. H. Graham, the messenger. He was lying on his back dead with a bullet just under his left eye. His pistol with one empty chamber was found in a pigeon hole of one of the money safes with the muzzle pointed towards the dead man. It is supposed the revolver exploded while Graham was leaning over the safe arming the cash. He was single, about 30 years old, and came from Brooklyn, where his body will be shipped for interment.

Earthquake in the Adirondacks.

SARATOGA, N. Y., Aug. 12.—A shock of earthquake of forty-five seconds duration was felt in the Adirondacks at 8:40 o'clock Saturday morning. Dishes rattled and buildings shook in at least a dozen different places. The motion was from east to west. The noise accompanying the shock was very distinct and sharp. The shock was particularly hard at Warrensburg.

Killed by Jumping from a Train.

SOUTH BETHLEHEM, Pa., Aug. 12.—H. Webb, of Wilkesbarre, 34 years of age, and Herman Newmayer, of the same place, 45, jumped from a Lehigh Valley train at Chain Dam early Sunday morning. Webb was instantly killed, and Newmayer was fatally hurt.

Charged With Forgery.

PORTLAND, Ind., Aug. 12.—Lewis Irey, of Wells county, forged a note for \$130 Saturday, and offered it at the Citizens' bank. The suspicion of the cashier was aroused. Irey was detained in the bank until the sheriff was sent for and he was jailed.

The Prohibition vote in Kentucky dropped to about 2,000 at the late election. The Prohibitionists seem to be getting the worst of it on all hands this year.

The Indianapolis Journal says: "The multiplication of trusts and the tendency towards combinations is the most striking feature of the times."

The Journal should not wonder at this at all. When Blaine, the defender of trusts, and his man Harrison won, the trust business was given a boost.

A full list of county officers will be voted for next August, besides a Clerk of the Court of Appeals and members of the constitutional convention, and there will be lively times in many counties. The Owensboro Inquirer says for the latter office especially our best men should be selected, and that it is none too soon to begin looking around us for them. The Inquirer is about right.

BRAIDWOOD, ILL., has hitherto been counted on for 200 Republican majority. Its population is mainly made up of miners and their families, who were told last fall that protection means plenty and free trade means starvation. The miners voted for protection, but the switch was misplaced and they have had starvation since May 1. They turned out the other day and elected a Democratic Mayor. It is pretty safe to count on these miners for the next Democratic nominee for President.

The sugar situation, as briefly stated by the Pittsburgh Post, stands in about this way: There are duties on both raw and refined sugars. The duty on raw sugar has an element of protection in it, but is, in effect a revenue duty, yielding over \$55,000,000 to the Treasury. On the other hand, the duty on refined sugar is protective almost to the prohibitory point. It yields only about \$1,500,000 to the Treasury. Repealing the duty on raw sugar would benefit the trust. Repealing the duty on refined sugar would smash it, and cheapen the cost of this prime necessity of life to every one of the 65,000,000 of consumers in this country. The people consume about 3,000,000,000 pounds of sugar annually, and the tariff duty enables the trust to extort at least \$30,000,000 a year from them. The way to break the trust is to repeal the duty on refined sugar, or cut it down to such a point as will admit of the importation of refined sugar in competition with the product of the trust.

"Hutch" Didn't Run.

The Vancueburg Times, a Republican, seems to be "on its ear." It says:

"The reason that Hon. M. C. Hutchins is not now State Senator, is because he didn't run. The reason he didn't run is that T. A. Davis made months at him in Mason, and that Hillis' friends in Lewis were afraid of \$2,000 which they said the Distiller's Association had settled in the various precincts of Lewis County, on the strength of which they would spring a powerful Democrat opponent to Hillis, and thus cause him to bleed at every pore. Then some said the Republicans had a promise from 'Kids' in Mason to aid in electing a Republican Congressman in the next congressional race, and for that reason they did not want to fight Poyntz. Wonder what the vote of the Mason County 'Kids' would amount to in the race for Congress even if I were certain that it could be obtained? Then who has the right to sell the 'Kids' individually and collectively to the Republican nominee? Suppose the 'Mossbacks' allow the 'Kids' to nominate the Congressman themselves then where does the promise come in? Or suppose somebody else nominates him in a convention in which the 'Kids' are represented, are they going to bolt the convention or the ticket? Had 'Hutch' been elected Senator by the aid of the 'Mossbacks' as he would have been, had he run, would that not have widened the breach in the Democratic ranks in Mason County, and then one faction or the other would have been sure to have aided the next Republican aspirant. There is one good purpose subserved by the failure of Mr. Hutchins to run, and that is the prevention of the use of boodle which if it could be ended entirely, would be better than the election of the whole Democratic ticket next year."

In the first place, "Hutch" wouldn't have been Senator had he run. The Times may not know it, but there are about as many Republicans who wouldn't have voted for him as there are Democrats who wouldn't have voted for Mr. Poyntz.

We don't know what prevented "Hutch" from running, and we don't care much. There may have been some trade or barter of the kind referred to, but the Democratic party of Mason County is too big for one man to carry in his pocket.

And the way "Hutch" was "choked off," hasn't left the Republican rank and file in the best humor and they have got it in for the "chokers."

Literary Brokerage.

In these days every one is bitten with a desire to see himself in print. Everybody else writes, why not we? Our stories are every bit as good as Smith's, our ideas perhaps better, but our early education has been neglected, our punctuation is uncertain and our spelling shaky. To send MS. in such a condition to a publisher is to waste our stamps. The copy will be returned by the next mail and fame and fortune with which we would so gladly have shaken hands pass us by without so much as a nod. One puts the MS. in the fire and buries his golden dreams in its ashes, while another writes to a literary bureau, as it is called, for terms, circulars, etc. These being satisfactory, the unlucky article is sent to the bureau to be revised, corrected, partly rewritten and copied out on the typewriter. It comes back as the young girl returns from boarding school, the same and yet different, with a polish, a finish which can be seen and admired, though it is hard to say exactly where the difference lies. The "copy" is now as good as anybody's, and very often the trust of the author is justified by the acceptance of the article.

These bureaus also advise one as to the best market for literary goods, what publishers to address and what avoid, and for another fee will "place" the article. Of course by the time one has paid all this his own profit is very small, but next time the writer will walk alone and deal with the publisher unaided—the bureau has furnished the foothold, the introduction needed.

The managers of these bureaus are writers themselves or the "readers" of the publishers, who increase their salaries by working after hours. Each publishing house has at least one of these "readers" and some two or three, whose business it is to read and decide on the articles sent to the house, so that they have a good knowledge of the public taste, and their opinion is of practical value.

As women write more than men it is only fair that the best known and most successful bureau in New York should be that managed by a woman. Indeed, so successful has it become that a new branch has been opened—plays are read, criticised, altered, adapted and recommended to theatrical managers.

These occupations are fair samples of the many departments which have been lately opened up in New York. There are many others which would, perhaps, seem more out of the way, for those given are remarkable chiefly as being the newest, that is in the United States, for, strange as it may seem, the old world is far ahead of the new in this respect.—New York Letter.

CLEVELAND, O., Aug. 8.—Mrs. George Stephan, the woman who eloped several days ago with J. A. Gehres, the building contractor, has written her husband from Windsor, Ont., saying she is happy and they are going to Montreal. Mrs. Gehres is in terrible distress. She is sick and has four children to care for. Stephan does not seem to care whether his wife returns or not. He says his children are old enough to get along without their mother, and he would never live with her again anyway.

THE "ARLINGTON" BURNED.

One of the Hotels at Blue Lick Springs Destroyed by Fire.

The "Arlington Hotel" at Blue Lick Springs was destroyed by fire at one o'clock this morning.

A telegram this morning stated that most of the furniture was saved, and that no lives were lost. Some of the guests lost their baggage.

The "Arlington" was owned by Captain Dan Turney, of Paris. The fire caught in the kitchen.

The loss is \$33,000. Insurance, \$15,000.

Major T. J. Chenoweth and wife, of this city were stopping at the "Arlington" last night and had to move pretty lively to get out of the burning hotel. They lost part of their baggage.

There were 118 guests in the house at the time, and many had retired for the night. The excitement for awhile was intense, and there were many narrow escapes.

County Court Doings.

The regular term of the Mason County Court convened this morning, Judge Coons presiding. Reports of settlements were ordered recorded as follows:

A. M. J. Cochran, guardian of Hattie Mannen, and P. L. Mannen.

M. C. Russell, trustee of Geo. S. Hancock.

E. Francis Masterson, guardian of Minnie Hurst.

Geo. W. Sulser, trustee of Littleton Hill.

Sophia Lippert, guardian of Matilda Lippert and John Lippert.

"Sweet Owen."

Owen County comes up with 2,000 Democratic majority. It reminds one of old times, when "Sweet Owen" always headed the Democratic column. For more than a half century Owen County has kept the faith, and her sons continue to tread the steps their fathers trod. Occasionally Daviess is the fashionable Democratic County, and sometimes it is Warren, but Owen, "Sweet Owen," never balks; she is as staple as smooth "four-foot-four" mules were before the war. Then Trimble, though not very big, always casts a nearly solid Democratic vote.—Louisville Times.

THE Bourbon News says: "Mrs. John Dudley, of Maysville, who has been at the Olympian Springs for several weeks, was brought to the Bourbon House last week, by her mother, Mrs. Dr. Stitt, and will remain here until fall. She has improved but little, and the seven or eight physicians who have examined her in the last few weeks are nonplused."

MARRIED IN MID-STREAM

Kentucky Lovers Defy Hard Hearted Parents, and Are Married on the Minnie Bay.

The Enquirer says: "In the saloon of the little steamer Minnie Bay, which runs between Cincinnati and Manchester, O., there was a quiet wedding Friday night. When the boat approached Foster's Landing the boat was hailed, and Henry Evans and Dora Young, both of Lexington, Ky., got on board. Evans is a farmer, and for some time past has been paying attentions to Miss Dora. She lent a willing ear, but her parents were opposed to taking Henry for a son-in-law, and so, figuratively speaking, set their joint foot down hard on the hopes of the young couple. The young people loved and sighed and entreated, but the hearts of the parents of Dora were as flint. Then the lovers took things into their own hands, and quietly stole away. They met some of their friends on the road, but told them that they were going to Flag Springs to a celebration.

"As soon as the Minnie Bay was well out into the current, and Henry had spoken to Captain Bryant, the latter hunted up Squire Beasley, who, by good fortune, was on board, and he joined the hands as were the hearts of the runaways."

Squire Beasley was elected as a Justice of the Peace in Huntington Township, Brown County, O., and the question is how can he officiate at a marriage down about Foster's Landing? Isn't he getting out of his bailiwick?

News About the Railroads.

The C. & O. authorities tried to buy the Portsmouth ferry the other day, but Captain Brown wanted too high a price. The company will now establish another ferry there in all probability.

The great tunnel at Cumberland Gap was opened the entire length last Friday, and the work of completing it will soon be finished. It is 3,950 feet long, and the bore, which was contracted for at a cost of \$300,000, required the removal of 43,450 cubic yards of solid rock. Trains in passing through the tunnel will cross sections of Kentucky, Tennessee and Virginia.

A correspondent of the Courier-Journal says Huntington's purchase of the Chattahoochee means the early completion of a trunk line piercing Northeastern Kentucky through the Big Sandy Valley and through the region of the great mineral deposits in the Cumberland Mountains and on to the Atlantic sea-board, to enable him to compete with the C. and O. from the Atlantic to the Ohio. This new road will make for itself a great business, attended with fine profit to itself, by the development of the Cumberland mineral region, the richest in undeveloped wealth on this continent.

President Ingalls of the C. & O. is seriously contemplating the construction of an extension of the road from Gordonsville, Va., about forty miles west of Charlottesville, in a northeasterly direction to Quantico, there connecting with the Pennsylvania system. Quantico is located south of Washington about forty miles and is the extreme southern terminus of the Pennsylvania system. At that point it connects with the Richmond, Fredericksburg and Potomac, thereby giving to the Pennsylvania system complete control of the southern entrance into the National Capital. The Courier-Journal says this would make the C. & O. route to Washington City much shorter than the present way by the Virginia Midland.

C. P. Huntington doesn't seem to part with the Chesapeake and Ohio Road with the very best grace imaginable, as the following from Dow, Jones & Co. indicates: "There are rumors of some contemplated changes in the management of the Chesapeake and Ohio. Mr. Huntington has openly stated that President Ingalls has his hands full with the Big Four, and to attempt to manage the Chesapeake and Ohio besides was too much for so young a man." The New York Indicator says: "The Chesapeake and Ohio keeps climbing, and Mr. Huntington's opinion of Mr. Ingalls as being too young to manage so many properties is apparently not shared by the street."

Excursions to Cincinnati.

Every Tuesday and Friday during the representation of the grand historical and spectacular entertainment the "Conquest of Mexico," the C. and O. will run excursions to Cincinnati. Half-fare from Portsmouth and intermediate stations every week on the above days. Good on regular trains. Admission to the Campus sold with the railroad ticket. Inquire of ticket agents for schedule of trains and tickets.

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach, and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

The ladies of the Catholic Church will give an ice-cream supper at the Neptune Hall Thursday evening, Aug. 15th. Everybody invited. Haucke's Reed and Brass Band will be present and render some of their choice selections. Admission, 10 cents.

A SMALL blaze in an old frame building belonging to Mr. Frank Armstrong, in rear of Wormald's Sutton street coal yards, caused the alarm of fire Saturday afternoon. The flames were extinguished with a few buckets of water before the fire department reached the scene. Damage trifling.

HENRIETTA McDANIEL has sold and conveyed a house and lot on north side of Third street, Fifth ward to A. A. Wadsworth for \$500. Mr. Wadsworth has sold same property to William Karr and George Karr for \$115 cash, the purchasers assuming the payment of two mortgages on the premises.

The entertainment given by Miss Lizzie Wilson Friday evening in honor of her cousin, Miss Anna Moore, of Springfield, O., was an enjoyable affair. About twenty couples assembled at the elegant Wilson residence on East Third, and after a little time spent in filling up the pretty programme, the music began and the large parlor was filled with dancers. The dining room was open all during the evening, where delicious refreshments were served as the couples came in from the dance. It was a pleasant event throughout.

Mrs. T. J. I. CLEVELAND died Saturday evening at 6 o'clock at her home in Dover, after an illness of three days, from brain fever. She was the youngest daughter of Mr. and Mrs. W. A. P. Lurvey, and was not quite sixteen years of age. About seven weeks ago she was a bright and happy bride. The family have the sympathy of their friends here and throughout the county in their hour of sorrow. The remains were brought here on the 10:18 train this morning and interred in the cemetery. Rev. R. B. Garrett officiated at the services at the cemetery.

L. A. GRIMES, of Lewis County, commenced suit in the United States Court at Covington Saturday against Sophia Grimes, Smith Grimes, Grace G. Grimes, Blanche Grimes, Harriet Hambuckle, Greer B. Hensley, Elizabeth Hensley, Anna M. Wells, Harriet McKay, Sophia Williams and Byron Grimes and Smith Grimes, executor of the will of Greer B. Grimes. The plaintiff claims that Grimes died in 1888, leaving an estate valued at \$100,000. He claims Grimes was not fit to make a will, and that he was under the influence of Smith Grimes, and the plaintiff asks for the will to be set aside.

The Irish Prisons.

They Are a Disgrace to Civilization.

GREAT DANGER OF AN EPIDEMIC.

The Worst Pest Holes are Selected for Those Convicted of Violating the Crimes Act—Petitions for Mrs. Maybrick, France's Policy a Peaceful One—Other Foreign Dispatches.

LONDON, Aug. 12.—Reports of the unhealthy condition of the prisons in which Irish political prisoners are confined, are causing considerable excitement, and the government comes in for its share of the blame. Many of the more excitable critics of Mr. Balfour do not hesitate to charge that the worst pest holes among the Irish prisons are purposely selected for the incarceration of those convicted of violations of the crimes act.

The condition of the prison at Talcarragh particularly is referred to as a disgrace to civilization, and it is pointed out that, although the attention of the authorities has been called to it repeatedly within the past year, nothing has ever been done to remove the danger of an epidemic, to which its filthy condition has been a standing invitation.

On Thursday last John McGee was released from this pest hole, in a pitiable condition, and when he reached his home it was only to die the next day of typhus fever. He had entered the prison a picture of health. He came out a physical wreck. Another prisoner, a man named Frieze, who was only released a few days ago, is also dead from typhoid fever, contracted while in confinement.

France's Policy Peaceful.

PARIS, Aug. 12.—President Carnot yesterday received a delegation of American and English students, who are attending different institutions in Paris. In his speech to the students he referred, in complimentary terms, to the head of the great American republic and to the Queen of England. Referring to their spokesmen's assurances of sympathy with the political institutions of France and with the aspirations of the French, he said he gratefully accepted this sympathy, not merely as a gratifying evidence of their good will, but for the practical benefits which could be made to flow from it to the young republic.

"Though you are not Frenchmen," said the president, "and though you do not expect to exercise the privileges of citizenship among us, you can do the French republic a signal service. When you return to your homes in England and America, as citizens of your own countries, you will be called upon to make a choice between the supporters of a policy of concord and amity with other nations, and that of defiance and distrust, which at this very moment, paralyzes the strength and wastes the resources of so many people. Let your voices be for concord and amity, shun the counsels of those who would fill your minds with the poison of hatred and distrust and bend your energies to the noble work of drawing closer the ties of friendship which bind other nations to you. Above all, assure your own people that this is, and will be, the policy of the French republic and in doing so you cannot fail to aid in the triumph of that policy."

Petitions for Pardons.

LONDON, Aug. 12.—Mrs. Maybrick had another long interview with her mother, who was permitted to remain in her cell for several hours. The condemned woman is much better than she has been at any time since the death sentence was pronounced. She has been assured by all who have access to her, that everything possible is being done to save her from the terrible fate which stares her in the face, and she has, in a great measure, recovered her spirits and now looks more hopefully into the future.

The petitions to the home secretary in her behalf are assuming immense proportions, hundreds of people in different parts of England having interested themselves to secure signatures. Petitions were circulated in all the dissenting churches in Liverpool yesterday, the ministers taking pains to explain to their congregations that the statements that the expense of the defense had been borne by Brierly, the unfortunate woman's paramour, were untrue.

Boulanger in a Bad Light.

PARIS, Aug. 12.—The high court of impeachment on going into secret session Saturday, had a mass of documentary evidence placed before them by the procurer general, including many letters written by Boulanger himself. Some of these tend to show that the general shared with M. Buret in certain commissions paid to that gentleman by army contractors. A letter was also submitted making damaging disclosures against Boulanger, which had been written by Madame Pourpe, his mistress, to her friend, the popular agitator, Louise Michel.

The animal was killed immediately. At a later hour the boy showed no signs of special injury.

Our Rights to Behring Sea.

SAN FRANCISCO, Aug. 12.—In an article published by The Argonaut, Congressman C. N. Felton, who was a member of the conference committee in the last congress on the Behring sea bill, takes the ground that Russia had absolute right over the marine life of Behring sea up to the time of the cession of Alaska waters to the United States, and that the United States succeeded to those rights in the waters ceded, as a matter of course.

Three Women Brutally Butchered.

CHARLESTON, W. Va., Aug. 12.—A horrible butchery is reported from McDowell county. The particulars are meager. It appears that a widow named Gillis lived in a remote district of the county with two daughters about grown. Friday neighbors found all three dead. They had evidently been criminally assaulted and murdered. There is absolutely no clue to the perpetrators of the deed.

PRICES CURRENT.

Review of the Money, Stock and Cattle Quotations for Aug. 10.

New York—Money at 3 per cent. Current rates, 118 bid; four coupons, 128; four-and-a-halfs, 106 1/4 bid.

The stock market opened very dull, but firm, the first prices being 1/4 to 1 1/2 per cent. higher than last night's close, the latter in Sugar Trust. At 11 o'clock the firm tone disappeared, and prices generally sagged off, and in many cases were brought down below the opening figures. Sugar Trust was especially weak, and all the advance of the previous hour was lost with something in addition, but the changes in the other stocks were small. Oregon Navigation, however, was strong, and rose 8 1/2 per cent. on very slight transactions. The market was with out further feature, and closed quiet and heavy generally at slight fractions lower than first prices. The bank statement shows a decrease in the reserve of \$1,423,000. Total sales of stock to-day aggregated 105,790 shares.
